

**Term Paper is due 5/8/2020**

**Guidelines for CS365 Term Paper**

The format of your paper must include:

- Title page including author and title of paper
- Text - doubled spacing, Times New Roman 12-point font
- Code – single spacing, Courier New or other non-proportional font
- One inch margins
- Ideally 4-5 pages for the paper itself (6-7 total including title and reference pages)
- Standardize method for references
- Separate reference page(s)

**Basic Rubric discussed in class**

Proposal	20%
Title page	5%
Grammar, formatting, references	10%
Background/context	15%
Discussion	40%
Conclusions	10%

Since the proposal was graded separately in Blackboard, the remaining portion of the paper will be graded as worth 80 points. When it is time to determine grades the two columns will be combined, giving 100 points total for the paper. This will make up 25% of the overall percentage, as specified in the syllabus.
